aprendizaje estudiantil

Nivel Graduado  
junio, 2025

# CONTEXTO

Este informe recoge los resultados correspondientes al año académico 2024–2025 y representa la culminación del ciclo de avalúo 2022–2025.

El nivel graduado presenta la ejecución de sus estudiantes en seis dominios del aprendizaje:

- Contenido de la Disciplina, Destrezas y Disposiciones
- Pensamiento crítico
- Comunicación efectiva
- Competencias de información
- Investigación y creación
- Responsabilidad social

La información que se presenta a continuación presenta de forma gráfica la ejecución de los estudiantes de cada programa tal y como se presenta en OLAS, luego que los coordinadores de avalúo y los profesores hacen el ejercicio de entrar los datos que han obtenido luego de utilizar diferentes modos de avalúo.

En el nivel graduado por lo regular se recoge información de los datos de seminario, tesis y proyectos de diferente tipo acorde con la especialidad. Veinte y seis programas registraron datos (dos de estos programas no registran sus datos en OLAS). Cada programa mide el desempeño estudiantil en estos dominios con base en una expectativa institucional de pase del 70% o más. Es decir, se espera que los estudiantes demuestren el 70% de alcance en los dominios evaluados.

A large, stylized graphic of a flower or plant is positioned on the left side of the image. It features several long, sweeping red lines that form the petals and leaves, set against a solid red background. The graphic is partially cut off by a diagonal grey line that separates the left side from the right side.
